# IAM ASSESSMENTS

Fortify your cyber security strategy with our IAM Assessment Services, and benefit from improved risk mitigation, enhanced IAM maturity, streamlined access controls, elevated compliance levels, and a more secure and efficient operational environment.

# IAM ASSESSMENTS

## Maturity Assessments

Discover your IAM maturity level with our comprehensive IAM Maturity Assessment. Identify any gaps in your cyber defences, mitigate risks, and receive recommendations to enhance your security and compliance - optimise your IAM strategy today.

## Privilege Access Assessments

Gain control over privileged access with our comprehensive assessments. Identify vulnerabilities, mitigate risks, and receive actionable recommendations to ensure your cyber security systems are up to scratch.

## Role Mining and Design

Streamline user access and strengthen security with our IAM Role Mining and Design Assessments. We'll analyse your users' access patterns, define their roles, and design an efficient role structure tailored to your organisation. Our recommendations will optimise access management, improve compliance, and enhance efficiency.

## Risk Assessments

Identify and mitigate any risks in your current IAM practices with the help of our comprehensive IAM Risk Assessment. As well as evaluating your current framework, we'll identify and eliminate any vulnerabilities, make sure you're aware of any potential weaknesses, and offer our expert guidance to ensure your defences align with current industry best practices and regulatory requirements.

## Health Checks

Assess the health of your IAM system with our comprehensive IAM Health Check. We'll evaluate everything from your configurations and user lifecycle management to security controls and compliance adherence. Receive actionable recommendations from our expert team, and a roadmap to enhance security, efficiency, and compliance.

## WHY US?

**Reducing Cyber Risk:** We specialise in IAM and significantly reducing cyber risk to prevent cyber attacks.

**Tailored Services:** Our client-focused approach ensures our customised IAM solutions match your unique requirements.

**Marketplace Understanding and Track Record:** With deep expertise and a successful track record, we guide clients to achieve their desired security state.

**Strategic Partnerships:** We partner with leading technology and resourcing providers, simplifying roadmap choices for pragmatic cyber security outcomes.

**Global Expertise, Local Relevance:** Our international team of skilled cyber security professionals in the UK and India deliver prompt and relevant services at any time.

**Flexible Engagement Models:** Our cost-effective and scalable models allow you to change spending based on your business' changing cyber security demands.
